Environmental Policy

This Policy was updated and approved by the
Managing Director on 8 December 2010

Issued on 29 March 2006

WARDELL ARMSTRONG LLP

ENVIRONMENTAL POLICY

The Firm places a high priority on the protection of the environment and supports the principles of sustainable economic development. It is the Firm's policy to minimise its impact on the environment as far as this is practicable and to continually improve its environmental performance.

This will be achieved in the following ways.

The Firm's activities

We will:

- Seek to minimise our direct environmental impacts through good work practices and office procedures accordingly;
- Regularly review and seek to minimise the consumption of natural resources, energy and materials, avoiding unnecessary consumption, and adopting re-use or re-cycling where possible;
- Incorporate appropriate environmental issues into the continuing professional development of our professional and technical staff, in order to raise awareness and help to apply appropriate environmental principles in all the Firm's areas of activity.

Projects and Clients

We will:

- Use our best endeavours to apply the most appropriate environmental practice and ensure that all the work undertaken on behalf of clients complies with relevant environmental legislation, regulatory standards and consent conditions;
- Advise clients where appropriate of relevant environmental issues and potentially adverse environmental impacts of projects for which we are commissioned.

The Firm will regularly review the overall performance and compliance in relation to this Environmental Policy.

Signed:

C W Brown
Managing Director
